

SEID ENDRIS

Full-Stack Software Engineer

Semera, Ethiopia | seidea63@gmail.com | seidali.dev.et
GitHub: github.com/SeidEndrisA | LinkedIn: linkedin.com/in/seid-endris

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with a Bachelor's in Information Technology and a proven track record of designing, building, and deploying scalable web applications. Specializing in modern JavaScript/TypeScript ecosystems (React, Next.js, Node.js, Express) and robust database design (MongoDB, PostgreSQL). Approach development with a strong engineering mindset, prioritizing clean architecture, maintainability, type-safety, and optimized performance. Experienced in delivering client-focused MVPs, multilingual platforms, and simulated real-time dashboards under active freelance contracts.

CORE TECHNICAL SKILLS

- **Frontend:** React, TypeScript, Tailwind CSS, Next.js, Framer Motion, HTML5, CSS3
- **Backend:** Node.js, Express, REST APIs, Python, GraphQL (Exploring)
- **Databases:** MongoDB, PostgreSQL, Firebase, Redis (Exploring)
- **Cloud & DevOps:** Vercel, AWS (EC2/S3), Docker (Exploring), CI/CD, Git, GitHub Actions
- **Tooling:** Vite, Jest, Zod, React Hook Form, Redux

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | Self-Employed

Jan 2026 – P

- Architected and deployed a bilingual (Arabic/English) student enrollment and progress-tracking platform for Abu Ayub Qur'an School. Designed a multi-step form validation workflow using React, TypeScript, and Tailwind CSS, reducing administrative admission processing overhead.
- Engineered a localized digital menu with an interactive simulated admin console for Wow Burger. Implemented theme support, bilingual toggle (English/Amharic), and real-time state synchronization using browser client-side persistence, simplifying restaurant menu updates.
- Developed a premium corporate landing page and client portal simulation for Siltawi Digitals (digital marketing agency). Created a filterable case-study gallery and built secure booking/consultation scheduling workflows.
- Created an interactive course catalog featuring dynamic search and advanced filtering for Erudite Language Center. Built a secure online admission form with document upload features.
- Designed a mobile-first children's e-commerce platform for Fozi Kids E-commerce with age-appropriate categorization, search filters, and local storage-persistent shopping carts.

SELECTED PROJECTS

Freelance Flow (React, TypeScript, Tailwind CSS, Vercel)

Vercel

- Built a client, project, and task management MVP tailored for solo freelancers to streamline daily workflows.
- Implemented CRUD operations with optimistic UI updates and reactive dashboard progress visualizations.
- Enforced strict TypeScript type definitions, ensuring consistent data relationship modeling across contact and task records.

Wow Burger Digital Ecosystem (React, TypeScript, Tailwind CSS, Vercel)

Vercel

- Designed an interactive client-side menu allowing customers to view, search, like, and review localized items.
- Developed an administrative simulation dashboard to toggle item availability, update pricing dynamically, and configure combos.

EDUCATION

Bachelor of Science in Information Technology

2015 – 2019

Wollo University | Graduated with distinction. Active member of the university coding club.

CERTIFICATIONS

MERN Stack Front To Back Certification

2026

O'Reilly | Developed a production-ready full-stack social network using MongoDB, Express.js, React, and Node.js. Configured JWT authentication, Express router REST endpoints, Redux state management, and deployed to Heroku.
